## Rescue Highlights

### Puppy Rescue From Parvo Virus

Recently close to 10 puppies and two adult street dogs died because of PARVO virus infection. I could not handle that case to save other four puppies as this disease is contagious. We can prevent parvo virus if we can vaccinate the puppies/ adult dogs on time and disinfect the place where they reside.

Keeping other dogs safety, decided to get their vaccination done asap. I got the required vaccination vials from a wholesale dealer. With the vet's help, I gave the vaccination shots to the puppies that are healthy and other friendly dogs. Now, these dogs are safe from any virus infection.

On the other side, people who don't do anything in the community always come and give warnings, but I could defend them because I have data to show what I have done to the community. And also in touch with the nearest police department if in case any action they take on me.

"Never step back - the law is in your favour."

## THANK YOU

Till date 20 monthly sponsors came forward to support the fundraising campaign every month. So far collected 90000 INR as donation out of 2000000 INR.

Thanks for your endless love, trust and support. Now, I can more focus on current and future projects without any confusion. Your donations raised my hope and confidence. And you were also inspiring other people to be part of my fundraising campaign.

A lot to do, Lot to come from my projects - I need your support and recommendations always.

## ECO CONZ

Due to some unexpected issues, eco conz not able to start IT consultancy services program for the NGO's / Individuals who are into animal welfare projects. It supposes to happen in Dec'20.

Now, all set at our end and with no further delay, we will launch our IT consulting service this month, Jan'21. We will offer this service for free for organizations/individuals working on animal welfare projects in INDIA.

Digital connect is not a comfortable area for everyone but an essential part to create a significant impact in the community through social projects. So our 15 years experience and struggle in this line made us learn a lot. We are happy to share that knowledge to ease the process for you.

## Green Innovation

We are currently working on a few best designs for our first products to help the needy animals. More information will disclose once we file the patent.

Working on a demo model to showcase in front of a few CSR leads, hoping that they can offer us some required funds to start our activities.

"Hope, we get some help soon for our project"

## AWBP Trust

This year we are going to kick start our education programs. We are targeting to collaborate with 10 schools in Hyderabad, India.

## On Hold

The other social projects like Animal Friend, Animal Mark and The Animal Saver are on hold for now because of funds issue.

-----

## Shining World Compassion Award - Year 2020

Delighted to share with you that I was honored by supreme master ching hai international association with 'Shining World Compassion Award - Year 2020' for our noble project Animals Water Bowl Project

Trust. This recognition and reward raised hope and confidence in me and in my current and future projects.

let's continue our good work in the community.

## Story Book

I am currently working on educational storybook primarily designed for school going, students and targeting to release the first copy of it before Mar'21.

The book contains interactive real-life stories that teach about the importance of animals and the environment welfare.

## Recommendation

IT consultancy services free for  
Animal Welfare NGO's /  
Individuals
